Action Items:

WHAT	WHO	WHEN
Reach out to Chuck Fisher (USFS) for clarification on: a. <i>Whether Statement 6(a) is covered by National Marine Fisheries Service (NMFS) regulations.</i> b. <i>Whether large wood recruitment is used to improve watershed health and recruitment in upper portions of the basin.</i>	Alyssa	4/14
Incorporate revisions to ZOA Statements document and share with Subcommittee/Collaborative. Collaborative to consider Statements at next monthly meeting (April 24).	Alyssa	4/14

Minutes: by Alyssa Bonini

I. Welcome & Introductions

- Alyssa Bonini introduced herself as the new Oregon Central Coast Forest Collaborative (OCCFC) Coordinator and shared her background. Alyssa can be contacted at abonini@triangleassociates.com and at 503.522.0091 (cell).
- Subcommittee members introduced themselves and their background on the OCCFC.

II. Review Feedback on Draft Zones of Agreement (ZOA) Statements

- Subcommittee members reviewed feedback on Statements 5 (c-d) – 9. Any extra time will be spent re-visiting Statements 1-5(a-b). Questions relating to several Statements arose, including:
 - o Question whether the term “decommission” in Statement 5 includes revegetation efforts.
 - o Question in Statement 6 about whether Aquatic Organism Passage (AOP) requirements apply only in fish-bearing streams. Fran shared that any new culvert on fish-bearing streams is subject to AOP.
- Discussion about supporting the public to use technology and online apps (i.e. [iNaturalist](#)) to identify and report invasive species on their phones.

- Important to consider the recreation potential of public lands when talking about installing gates, and the risk of locking folks in by mistake.
- Subcommittee members requested that Alyssa follow up with USFS about:
 - o Whether Statement 6(a) is covered by National Marine Fisheries Service (NMFS) regulations.
 - o Whether large wood recruitment is used to improve watershed health and recruitment in upper portions of the basin.
- The Subcommittee finished reviewing each of the 9 ZOA Statements and is ready to review them with the full Collaborative Group at its next meeting on April 24. Alyssa will incorporate comments and circulate a clean version of the Statements document to Subcommittee members and to Collaborative members in advance of the April meeting.

III. Wrap up & Next Steps

- Subcommittee members decided that they do not need to meet in May. Instead, they will present their draft ZOA Statements to the full Collaborative Group at its April 24 meeting.
- The Subcommittee will address comments/proposed revisions arising from the Collaborative meeting at a June Subcommittee meeting as needed.
