

# The Oregon Central Coast Forest Collaborative is looking for new members!

The Oregon Central Coast Forest Collaborative (OCCFC) gives input to the Siuslaw National Forest (Forest) to provide stakeholder and public feedback on forest health and management practices. It is a space for open discussion and communication amongst stakeholders from diverse interests to improve the development, implementation, and monitoring of forest and watershed management projects. The group meets monthly with Forest leadership to learn more about current projects and work on the forest.

## Recent Accomplishments

- Developed and adopted **9 Zones of Agreement** on Roads for the Forest Service
- Developed and adopted 12 Zones of Agreement on Beaver Habitat for the Forest Service
- **Developed informal recommendations** for USFS on North Fork Smith EA Preliminary Proposed Actions
- Held **3 Field Tours** with USFS
- Hosted **3 online science panels** on a variety of topics

*OCCFC and USFS at a Field Tour to the Three Buttes Fire area, Spring 2024.*

Do you...

Represent environmental, forestry, logging, or recreation interests?

Have an interest in forest planning?

Appreciate respectful collaboration between interests?

Have knowledge or ideas to share on forest management?

Want to engage more with Siuslaw National Forest leadership on the future of the Siuslaw National Forest?

If so, please consider reaching out to learn more about getting involved!

For more information on getting involved, contact OCCFC Coordinator Dani Jochums at [djochums@triangleassociates.com](mailto:djochums@triangleassociates.com)
